Dear ladies and gentlemen!

By this, I have the honour to invite you to take part in the Third International Uzbekistan Energy Forum, which is scheduled for May 14-16, 2024, in the city of Tashkent.

We would like to emphasize that the previous Uzbekistan Energy Forums held in 2022-2023, attracted many leading players from the international energy and oil and gas community and facilitated high interest among local and foreign experts.

Taking into account the current global trends, as well as the large-scale activities being carried out in Uzbekistan aimed at providing clean power to the population, the global theme of the Forum will be “Transformation for Safe Future Energy: Dynamic Energy Transition”.

The Business Programme of the Forum includes the following key energy events: The 26th Oil and Gas of Uzbekistan - OGU 2024 International Exhibition and Conference; the 17th Power Uzbekistan 2024 International Exhibition of Energy, Energy Saving, Nuclear Energy, Alternative Energy Sources; Power Uzbekistan 2024, a specialised section of the exhibition for Green Energy Technologies - GETCA, as well as G2B and B2B meetings.

We express our hope that the Forum, organised in partnership with Iteca Exhibitions, will also become a significant industry event, a venue for important meetings, discussions and experience exchange for representatives of the major companies and leading experts on the latest trends in the industry and strengthening international cooperation.

There is no doubt that the importance and practical results of such events will get even higher during the period of global changes taking place in the fuel and energy sector and in the process of searching for optimal ways for clean energy transition. Your participation in the Third International Uzbekistan Energy Forum will add significance to the event.

J. Mirzamakhmudov,
Minister
