Rupit Raj, Head of Proposal Development, Acwa Power

The exhibition went well for us. We met a lot of clients, prospective customers promising business opportunities for the future. And we also managed to engage local talent which will help us to contribute to the social impact in Uzbekistan.

Ekaterina Prokusheva, Chief Procurement Specialist, ASPMK 519

We are engaged in construction, turnkey design of electrical networks of substations. We are taking part in this exhibition for the first time. Of course, there were visitors with whom we already work. It was possible to reach certain agreements for future projects. This exhibition was held at a high level, as there were a number of new useful acquaintances and a lot of visitors.

Valeriy Pyatov, Regional Sales Manager, Kehua Tech

Our company is very large manufacturer of power equipment from China. We produce uninterruptible power supplies, modular data centres and equipment for renewable energy. We are taking part in this exhibition for the first time, but the impressions are very good. The participation is productive, there are already a lot of interested large target customers.

Ahmad Shahnawaz, Sales&Marketing Director, Remedies Earthing Systems

We are a leading manufacturer of earthing systems in India. Being for the first time in Uzbekistan, we are trying to tap the Uzbek market. We hope that we will succeed. The exhibition and its organization are at a high level. There is a favorable atmosphere for new manufacturers and debut participants.

Maruf Tajiyev, Commercial Director, Nura Group

This is not the first time we have participated in the exhibition, and I hope that we will continue to participate in the future. We got a very good impression from the exhibition, a lot of relevant and new partners. The organization of the exhibition is at a high level, a lot of companies, new business partners. I hope that in the future it will be even better.
