POST SHOW REPORT 2025

The Power Uzbekistan International Exhibition plays a vital role in advancing the country's energy sector. It serves as a key platform for knowledge exchange, adoption of innovative technologies, and promotion of investment opportunities.

Power Uzbekistan - a leader in transformation and technological advancement

EXHIBITION SECTIONS:

- Power engineering and electrical engineering
- Mechanical engineering
- Nuclear power
- Renewable and alternative energy sources
- Generators
- Cabling and wire products

Throughout its history, Power Uzbekistan has consistently supported the integration of advanced technologies into Uzbekistan's energy sector. The exhibition has evolved into the flagship event of Uzbekistan Energy Week - UEW, which now brings together exhibitions and conferences across the related industries with the official support of the Ministry of Energy of the Republic of Uzbekistan and Uzbekneftegaz JSC.

UEW is more than just a platform for a dialogue, it is a source of new ideas, inspiration and opportunities, where partnerships are formed, key trends are discussed and paths to a sustainable future are charted.

Opening Ceremony

OPINIONS FROM THE EXHIBITION:

Umid Mamadaminov
Deputy Minister,
Ministry of Energy of Uzbekistan

UEW 2025 is undoubtedly one of the most significant energy events in Central Asia. The forum brought together the energy ministers from several Uzbekistan's key partner countries, who shared their visions and strategic insights. The impressive participation of both regional and international companies reflects Uzbekistan's openness to innovative technologies and solutions. It highlights our country's growing role as a regional hub for energy development and cooperation.

Sitora Muratova
Technical Manager,
Longi

We have participated in the Power Uzbekistan exhibition for several consecutive years, and with each edition, its scale and impact continue to grow. Every year, we see more new companies, fresh partnerships, and new industry players, not only from Uzbekistan but also from neighbouring countries such as Kazakhstan, Kyrgyz Republic, and Tajikistan. There is rising interest in alternative energy, especially solar technologies, alongside continued demand for traditional energy solutions.

Davron Dadaev
Director,
CNC Electric

This was our first time exhibiting at Power Uzbekistan, where we presented our latest and most advanced equipment. The exhibition provided a valuable platform to connect with new clients and showcase a wide range of innovative products. We are very pleased with the outcomes and are already planning to return for the 2026 and 2027 editions.
